Profile

Experienced frontend engineer, I am a skilled Developer with 4+ years of experience. Proficient in HTML, CSS, JavaScript, and creating visually appealing interfaces, I deliver high-quality solutions for web development projects. With expertise in Reactjs, React Native, Flutter, and Dart, I build cross-platform mobile apps with native-like performance and excellent user experiences. Additionally, I have knowledge in Python and Django for backend development, RESTful APIs, and database management. Collaborative and dedicated to continuous learning, I contribute to team success and deliver exceptional web and mobile development solutions.

Skills

FRONTEND FRAMEWORKS

- REACT.JS
- REACT NATIVE
- REDUX
- BOOTSTRAP
- TAILWIND CSS
- FLUTTER
- MATERIAL UI

TOOLS AND METHODS:

- GIT
- TDD
- MVT ARCHITECTURE
- RESPONSIVE/MOBILE DESIGN
- LINUX
- JIRA
- SLACK
- FIGMA

PROGRAMMING LANGUAGES

- PYTHON-3
- JAVASCRIPT
- TYPESCRIPT
- HTML & CSS

BACKEND TOOLS

- MONGODB
- FIREBASE
- DJANGO
- RESTAPI
- SQLITE

Professional Experience

RAVEN FINANCE, *Flutter Developer*

2022

- Collaborated with a cross-functional team of designers and backend developers to implement features and enhance the application's performance
- Integrated RESTful APIs to fetch and display real-time account balances, transaction history, and bill payments.

- Utilized Flutter's state management solutions, such as Provider and Getx, to efficiently manage application state and ensure a smooth user experience.

Helension.Inc, Frontend Engineer [*🔗*](#)

01/2023 – 04/2023

- Optimized website performance through code and asset optimization techniques, resulting in faster load times and improved user experience.
- Integrated RESTful APIs to fetch and display dynamic data, ensuring seamless interaction with backend systems and third-party services.
- Implemented responsive layouts and mobile-first designs, providing a consistent experience across various devices and screen sizes.

2022 Learner-ed Grl foundation, FULL STACK DEVELOPER

02/2020 – 10/2022

- Collaborated closely with the learner-ed foundation to understand their requirements, goals, and target audience, translating them into a scalable and user- friendly web application
- accomplishments. Deployed the web application to Heroku, ensuring high availability and scalability to accommodate increasing user traffic and attract investors.

Tonitel, Lead Frontend Developer [*🔗*](#)

05/2023 – present

- Developed and maintained highly interactive and performant web applications using React.js, Redux, and other frontend technologies.
- Utilized React components, JSX, and state management with Redux to efficiently manage application state and ensure seamless data flow.
- Actively participated in code reviews, providing constructive feedback to peers and adhering to best practices for code quality, maintainability, and scalability.

Aguriba Health Care, Flutter developer

04/2020 – 06/2020

- Responsible for building a modern desktop application to manage patient records and staff records using flutter
- Successfully implemented Getx for state management and firebase for cloud and asynchronous storage

Projects

HOSPITAL MANAGEMENT SYSTEM, The Hospital Management System API is a Django-based RESTful API that allows hospital staff to manage patient records, appointments, and medical history. This API provides a secure and efficient way to manage patient data and streamline administrative tasks. [*🔗*](#)

01/2023

LINKEDIN CLONE, This is a LinkedIn clone, built using Django, that aims to replicate some of the core features and functionalities of the original LinkedIn platform. [*🔗*](#)

11/2022

ECOMMERCE-PAYPAL-WEBAPP, Our eCommerce PayPal project is a modern and user-friendly online shopping platform built with React. It seamlessly integrates PayPal as the payment gateway, providing a secure and convenient payment solution for customers. Experience hassle-free shopping with our intuitive interface and smooth transaction process. [🔗](#)

03/2023

BODY-FITNESS-APP [🔗](#)

11/2022

The fitness project app is a comprehensive solution designed to help individuals achieve their health and fitness goals. With a user-friendly interface and a range of features, the app provides personalized workout plans, tracks nutrition and calorie intake, monitors progress, and offers guidance and motivation. Whether it's strength training, cardio exercises, or yoga, the app caters to various fitness interests

ADDITIONAL SKILLS

- Writing scalable code using Python programming language.
- Good communication skills
- Ability to collaborate on projects and work independently when required.
- Ability to learn new languages easy
- Testing and debugging applications.
- Ability to integrate multiple data sources into a single system.

Interests

- Playing Video Games
- Learning programming
- Reading
- Writing
